Description

For use as measuring, control and connection cable for machine tools, conveyor belts, tool machineries, plant installations, control and computer units in dry, damp or wet rooms at heavy stress. The braided copper screen serves as electromagnetic screen between the internal electric circuits and the surroundings. Ideally suitable for interference-free data and signal transmission in measuring and control technology. The transparent outer sheath gives the cable an optical revaluation.

additional information

- flame-retardant acc. to VDE 0482-332-1-2, DIN EN 60332-1-2/IEC 60332-1 (equivalent to DIN VDE 0472-804 test method B)
