## **DATA SHEET**

KPS - cable clamp cover

KPS 160X200 PO type number: width (A) = 330 mmKPS 160X400 PO width (A) = 530 mm

product description: KPS cable clamp cover is fixed on the base material (concrete, solid brickwork) and creates thermal protection of the clamps, which in that way may perform its mechanical function even in fire conditions. The cover is fixed using ZT 8 threaded rods, M 8 nuts and PVL 8 washers anchored using KPOZ 8 anchors (MS KPS kit) to the base material.

KPS cover is not classificated as the fire-stop plug.

If the cover is to perform safely its function, it must be installed on ascending routes consisting of cable ladders by max.  $3.5\,\mathrm{m}$ .

The cover is positioned symmetrically with the cable ladder cross-piece with cable clamps PKC1

KPS cover includes calcium-silicate fire protection boards, insulation wool and a cartridge with insulation cement.

The installation kit MS KPS (not included) must be ordered to attach the

The installation kit contains fire-resistant anchors, threaded rod, washers, nuts and a knife for cutting heat-insulating wool.

MS KPS is being sold separately
